PERMIT NAME AND NUMBER: Battle Creek Sanitary Landfill, Permit No. 579

PROJECT DESCRIPTION: County of Page has applied for a modification to a permit that allows the Battle Creek Landfill to operate an existing landfill in Page County, Virginia. This modification to the permit would allow redesigns of the bottom liner and final cover grades to increase the top of the landfill elevation from approximately 1320 feet to approximately 1350 feet and to increase the disposal capacity from approximately 4.85 million cubic yards to approximately 7.97 million cubic yards with no change of the landfill footprint. This modification would also allow options for geomembrane/GCL alternate liner, leachate recirculation, and active gas collection system. This permit modification also incorporates the gas compliance network change, approved in March 28, 2012, of replacing Gas Monitoring Well GM-7A with Gas Monitoring Wells GM-7B through 7D.
